## INTRODUCTION

This document is intended as a reference or guide for the Provincial Micro, Small and Medium Enterprise Development (MSMED) Councils in developing Provincial MSMED Action Plans throughout the country. This document is a step by step process to also guide the planning workshop moderators and documenters in order to come up with a Provincial MSMED Action Plan that will capture the National MSMED Plan 2011-2016 Framework and the Provincial Priorities and Directions.

It is the intention of this document that all MSMED Councils throughout the country will come up with Provincial MSMED Action Plans that are comparable in terms of process and final documentation output. It is also relevant to mention that this guidebook is a result of a pilot Provincial MSMED Planning Workshop that was conducted in Bohol, Central Visayas. From the Bohol experience, various provinces in the Visayas conducted their Provincial MSMED Action Planning workshops using the same basic process. This document captures the Bohol model plus some enhancements after observing the process and outcome of other provinces.

## RATIONALE

The 2011-2016 MSME Development Plan aims to address the key challenges and constraints that continue to prevent the MSME sector from realizing its full potential and boosting the country's industrial growth. To achieve this, the Plan lays out the overall framework to guide the formulation of action plans towards a more harmonized approach to MSME development. It was developed in close consultation with national, regional, and provincial stakeholders. It will be implemented through a convergence of stakeholder efforts with regular monitoring, validation, and updating by stakeholders under the stewardship of the MSME Development Council.

The 2011-2016 MSME Development Plan identifies the results necessary to raise the MSME sector's contribution to GDP to 40 % and generate 2M employment. The action plans necessary to deliver these results will be crafted and managed at the local and regional levels following the principle of subsidiarity. They will address the four outcome (result) areas which are Business Environment (BE), Access to Finance (A2F), Access to Market (A2M) and Productivity and Efficiency (P&E) integrating the three development approaches and four global themes according to the situation in the locality. These development approaches include Local and Regional Development (LRED), Value Chains (VC), and Market Systems Development while global themes cover Green Growth/Climate Change, Corporate Social Responsibility, Migration, and Gender. As mandated by RA 9501 or the Magna Carta for Micro, Small, and Medium Enterprise Development, the National MSMED Council will shepherd the crafting and implementation of the National MSME Development Plan. The Council will, however, manage at the outcome level and leave the preparation and management of the MSMED Action Plans to local and regional MSMED Councils.

Given the mandate of the local and regional MSMED Councils, the crafting and management of the Provincial MSMED Action Plans is crucial to the development of MSMEs in the provinces.

## KEY IMPLEMENTATION STEPS

### PRE-PLANNING WORKSHOP

The importance of the Preparatory Work cannot be overemphasized since the quality of the Provincial MSMED Action Planning Workshop is dependent on the quality of inputs and preparation. To guide the provinces in undertaking this phase, Table 1 is provided to offer hints on how the preparation for the Provincial MSMED Planning will be carried out.

**Table 1 Tasks during the Preparatory Work stage**

No	Objective	Expected Output	Responsible
1	To review the performance of MSMED Council member agencies for the previous year	Summary of Accomplishment Reports according to Outcome/Results	MSMED Council Member agencies and organizations;  Secretariat to summarize
2	To present the National MSMED Plan Framework to the members of the Council	Understanding of the National MSMED Plan 2011-2016 Framework. The standard presentation from BMSMED will be used. The MSMED Council members are now aware of the challenges and desired results per outcome area which shall be validated in the Provincial MSMED Action Planning with reference to the priority sectors of the Province	DTI Provincial Director
3	To get inputs from the Provincial Government on the Provincial Development Plan and the identified priority sectors of the province	Understanding and awareness on the Provincial Development Plan including the listing of priority sectors of the province	Provincial governor or representative to be invited in a MSMED Council meeting
4	To select the economic drivers/priority sectors of the Province after the inputs from the National MSMED Plan Framework and the Provincial Development Plan and Priorities	Agreement on the priority sectors to be adopted/ supported by the MSMED Council	MSMED Council
5	To plan for the Provincial MSMED Action Planning Workshop	Agreements on the following: <ul style="list-style-type: none"> <li>• Dates</li> <li>• Workshop design (see Table 2 )</li> <li>• Moderators and documenters</li> </ul>	MSMED Council

## RECOMMENDATIONS

- Proper and timely visualization and documentation of the workshop outputs are essentially important in ensuring the effectiveness of the Planning Workshops as well as the efficiency in carrying out subsequent activities. As such, care should be given in ensuring that competent documenter(s) is(are) engaged to support the Secretariat in delivering these Workshop Outputs.
- Ample and thorough preparatory work is essential to the success of the Workshop facilitation, content presentations, processes, tools, and outputs. The role and contribution of a competent Workshop facilitator is definitely crucial.
- The presence and representation of the BSMED in the Provincial MSME Development Planning Workshop brings positive energy and impact in terms of content, inspiration and commitment.
- The MSMED Council must take the driver's seat in the activity, with DTI providing the support being the Secretariat of the Council.
- The active involvement of the private sector (MSMEs) should be encouraged. They must be encouraged to be part of the program.
